## About The Arc...

In 1950, a small group of parents and other concerned individuals came together to act as voices for change. At the time, little was known about the condition of intellectual disability (at the time referred to as 'mental retardation') or its causes. There were virtually no programs and activities in communities to assist in the development and care of children and adults with intellectual disability or to support families.

It was common at that time for doctors to tell parents that the best place for their child was in an institution. Emboldened by their collective desire to raise their children in the home and their stubborn refusal to accept that institutionalization was the only option, The Arc's founders fought even harder.

Like every parent of any child, they wanted more for their children. They wanted their children to lead fulfilling lives out in the community and not shuttered away in dark institutions. It was in that spirit that The Arc was born.
